

I am VERY concerned that LPFM stations may replace K-Love which is the only radio station I listen to. This station provides positive uplifting music and programming and is a true ministry to its listeners. Many receive spiritual help thru this station that would never attend a church. Lives in the listening area are changed for the better which helps our community. This is also a wonderful ministry to our youth & helps to focus them in positive ways. I can't even imagine this station being replaced by another. PLEASE keep LPFM stations from taking priority over current programming like K-love.
